ABOUT ADM SYSTEMS

At ADM Systems, we believe technology should serve people – not the other way around. Since 1986, we've been helping Australian businesses bring their projects to life with practical, commercially viable solutions that integrate seamlessly into real-world applications. Whether you're developing a complex automation system, designing cutting-edge lighting, or simply need reliable components delivered fast, ADM is here to help.

We specialise in four key product areas:

- LED lighting products and power supplies
- Industrial power supplies
- Industrial and process automation solutions
- Radiation detection equipment

But we're more than just a distributor. ADM is a team of real people who care deeply about getting things right for our customers. Our philosophy – Human. Helpful. Here. – guides everything we do. It means you'll always have access to knowledgeable technical support, responsive customer service, and local stock that ensures fast delivery when timing matters most.

We understand that every project is unique. That's why we've expanded our capabilities to offer customised products and bespoke solutions, tailored to meet specific technical and commercial requirements. From pre-configured devices and 3D-printed brackets to complete kits and custom connectors, we work closely with our customers to deliver solutions that fit – not just physically, but practically and economically.

ADM supports a wide range of industries across Australia, including:

- Industrial automation
- Medical and pharmaceutical
- Food & beverage
- Research & development
- Higher education
- Lighting specialists and OEMs

Our customers rely on us not only for quality products, but also for services that make a difference:

- Rental and loan of handheld test & measurement equipment
- Calibration of transducers, sensors, and other devices
- Service and repair down to component level
- Expert technical support across all product lines

ADM Systems Pty Ltd is a proudly family-run business, founded by Glenn Bates and now led by his daughter, Kristin Brown. Over the decades, we've grown to become Australia's largest distributor of MEAN WELL power supplies, Eurotherm process control solutions, PCA encoders, industrial sensors, and test instrumentation. Our technical team undergoes regular factory training and maintains close relationships with our suppliers, ensuring we stay ahead of the curve and our customers benefit from the latest innovations.

Whether you're ordering online or speaking with one of our team members, ADM is committed to being accessible, responsive, and reliable. We offer volume pricing and scheduled ordering for OEMs and large projects, as well as convenient online services for smaller enterprises and retail customers.

At ADM, we don't just sell products – we build partnerships. Because what matters to you, matters to us.

BUILDING AUTOMATION & LED POWER

Australian Approved

LED DRIVERS

Constant Voltage & Constant Current

DALI & DALI 2 Control

PWM & Push Dimming

0/1-10 Dimmable

AC Dimming

Linear Models

IP20/ IP42 / IP65 / IP66 / IP67

LED STRIPS, MODULES & NEON FLEX

COB, High Luminance, Full Spectrum, RGB Mix LED Strips
Dome, Slight, Angled, Lucid, Colour-Flow, Omni, Flexcite, Halo,
Compact, Jet Black & Flexible Wall Washer Neon Flex Strips

Backlit & Edgelit LED Modules for Boxlight Signage

IP20/ IP54 / IP65 / IP66 / IP67/ IP68

LIGHTING CONTROL

RGBW Lighting Control

Daylight Harvesting

DALI-2 & KNX Controllers

PIR & Microwave Sensors

Tuneable White

Wireless Master & Slave Modules

DMX Control Systems

LIGHT SWITCHES

European Design

Match Style & Colour to Interior Design

Switches & Cover Plates

Power Outlets & Accessories

Smart Building Automation

INDUSTRIAL POWER

Australian Approved

DIN RAIL

Low Profile
Slim Line
Current Sharing
Single, Two & Three Phase

ENCLOSED POWER SUPPLIES

15 WATTS ~ 10,000 WATTS
Single & Multi Rail
Modular
Rack Mount
Current Sharing
Remote Adjustment of Output
PMBus / CANBus

DC TO DC CONVERTERS

DIN Rail
Enclosed
PCB Modules
Railway Approved Models
Vibration Resistant

AC TRANSFORMERS

Low Loss Iron Core
Separate Insulated Windings
Fully Impregnated with Topic Proof
Anti-Fungus Varnish
AS/NZ3108-1994 Certified
Opt. DIN Rail Mounting Clip

POWER ADAPTERS

Plug Packs
Desktop Power Adapters
Medical Adapters
Accessories

UPS / SECURITY

DIN Rail
Enclosed
UPS & Redundancy Modules
Battery Charging / Monitoring
Alarm Output

BATTERY CHARGERS & INVERTERS

Lithium Battery Compatible
Suited for Caravans
True Sine Wave
Modified Sine Wave
Upto 3000 WATTS
Inverter / Solar Charger
Rack Mounted

OPEN FRAME POWER SUPPLIES

General Purpose
Medical Power Supplies
PCB Mount Modules

PROCESS, CONTROL, RECORDING & AUTOMATION

MEASUREMENT & CONTROL

Displays, Transmitters & Panel Meters
Heating & Refrigeration Control
Process Control & Automation
Secure Data Logging
Thyristors
Solid State Relays
Variable Speed Drives
Condition Monitoring

PRESSURE

General Purpose
High Pressure
Low Pressure
Differential Pressure
Hazardous Areas (IECEx)
Wireless
Handheld Pressure Meters

POSITION & DISPLACEMENT

Linear Position
Rotary Position
Angle Monitoring
Inclinometers
Dust & Moisture Proof
OEM Devices

ANALYTICAL MEASUREMENT

Process Refractometers
Brix Measurement
pH Measurement & Control

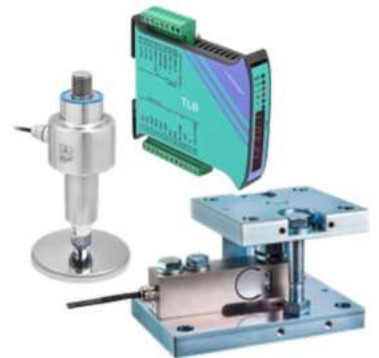

PCA ENCODERS

Absolute & Incremental
Optical & Programmable Magnetic
Solid & Hollow Shaft
Local Builds & Test
Heavy & Severe Duty Encoders
Wide Range of Accessories

WEIGHT & FORCE

Miniature Load Cells
Beam Load Cells
Mounting Kits
Torque Transducers
Load Cell Indicators
Load Cell Amplifiers
Handheld Force Gauges

HARTING CONNECTORS

HAN Modular Industrial Connector
60 Most Popular Items in Stock
Heavy Duty, Light Weight, Compact
Suited for Industrial Applications

LEVEL & FLOW MEASUREMENT

Ultrasonic Clamp-On Flow Meters
Ultrasonic & RADAR Level Transmitters
Open Channel Flow & Velocity
Hydrostatic Level

RADIATION MONITORING

Ionising & Non-Ionising

THERMO SCIENTIFIC PERSONAL & HANDHELD RADIATION DOSIMETRY

Active & Passive Dosimetry

Bluetooth Dosimetry

TLD Badges & Materials

Contamination and Survey Meters

Geiger Counters

NORM Monitors

NORM & GAS RADIATION MONITORING PERSONAL & AREA MONITORING

Exposimeters / Dosimeters

Gamma and Alpha Spectroscopy

Continuous Air Monitoring

Dosimeter (Inhalation)

EME / EMF MONITORING

Personal RF Monitoring (DC to 60GHz)

Handheld Field Monitoring (DC to 90GHz)

Monitoring for lab, outdoor and remote applications
(100kHz to 90GHz)

ARPANSA, EU Directive 2013/35, ICNIRP, IEC, EN, SC6

3G / 4G Communications

Web-based Monitoring

CUSTOMISED SOLUTIONS

Unique & Scalable

UNIQUE, BESPOKE AND SCALABLE SOLUTIONS

At ADM, we don't just sell products – we offer tailored solutions that make integration of our products into your projects easier and more effective.

For years, our team has worked closely with customers to develop bespoke solutions that adapt our products to their unique applications. Recently, we've expanded our capabilities to offer even more flexibility and innovation across our four core product ranges:

- LED Lighting
- Industrial Power Supplies
- Industrial & Process Automation
- Radiation Safety & Monitoring

Whether you need a custom connector, a 3D-printed bracket, or a fully pre-configured device, ADM Custom Solutions are designed to meet your specific requirements. We can supply complete, ready-to-install kits of parts – saving you time and simplifying deployment.

Our experienced engineers and technicians collaborate with you from concept to completion, transforming ideas into scalable, purpose-built solutions. From modifying existing products to building entirely bespoke systems, we ensure your integration challenges are solved with precision and technical expertise.

By delivering purpose-built solutions that fit your exact requirements, ADM helps you reduce development time, lower integration costs, and accelerate the delivery time of your product or project.
